

INTERNATIONAL CHALLENGE 2022

Of the International Federation of Wine Brotherhoods

To the members of the F.I.C.B. and to the wine producers of their regions

The International Federation of Wine Brotherhoods (F.I.C.B.) brings together the wine brotherhoods and their national or regional federations from 25 countries on 4 continents. The aim of these brotherhoods is to bring together the wine connoisseurs of a region or a country and to maintain the traditions of wine. They share the values and objectives summarised in the F.I.C.B. "International Charter of Wine Brotherhoods".

Every year, the F.I.C.B. schedules a major international event organised by one of its members (see www.winebrotherhoods.org). The **2nd F.I.C.B. International Wine Tasting Challenge will take place in Hungary from 2 to 7 June 2022** in Budapest and its wine region , followed by an extension in Eger and the Tokaj region. It is organised by the **Order of the Ladies of Pannonia** and will gather some 100 participants.

This Challenge includes an appreciation by all participants of the wines served blind during the Challenge meals. The tasting is supervised by an international jury of experts and the wines having the highest score total are designated as the "**preferred red wine**" and "**preferred white wine**" of the Challenge of the year. The wines tasted are preferably supplied by producers from wine regions in which there is an F.I.C.B. member brotherhood.

see the programme and the rules of the 2022 F.I.C.B. Challenge at the following link:

www.winebrotherhoods.org/news/246/33/Registration-open-for-the-2022-F-I-C-B-Wine-tasting-Challenge-in-Hungary/

The event will be widely communicated by F.I.C.B. to its members, the wine trade press and through its website. All the wines tasted will be mentioned and briefly described on the F.I.C.B. website, with links to the sites of the suppliers. The mention "**wine supplied for the 2022 F.I.C.B. International Challenge**" may be used by the suppliers for their communication. The "**preferred wines**" will receive a certificate that they can use in their commercial promotion, including on the bottles of the wines declared winners. This is an excellent opportunity for producers to promote their wines internationally.

Producers who wish to have their wines participate in the Challenge are asked to make themselves known to the organizers before **15 February 2022** using the attached form. The practice, established during the 1st F.I.C.B. International Challenge organized in Finland in 2019, is that the producers take charge of the supply and shipment of the bottles (12 to 18 of the same wine) needed for the tasting. However, to complete the selection, the organizers may consider the supply of wines under other favorable terms.

With brotherly regards, 8 November 2021

The President of F.I.C.B.

Alan BRYDEN

The President of the Ladies of Pannonia
